5200

PE design cover

PE (Polyethylene) drawing sleeves provide protection to technical drawings against dust, moisture, and damage. These sleeves are transparent and durable, allowing the contents to remain visible while being safeguarded. They are ideal for use in construction and architecture projects where precision and document protection are essential.

Product information

- LDPE film, transparent
- Quality 70mÂµ, A1 material
- Each design cover featured with patented metal glider zipper system
- Each packing wrapped in a PE bag, with neutral COVER label, 4 languages and EAN-code
- Transport packing in sturdy carton boxes
- Delivery on Euro pallets (80×120cm)
